This book is an easy-to-follow, self-help manual of the job searching basics. It's like having a career coach in your corner, helping you through every step to obtain a new job.

Many of today's job seekers are approaching the process completely wrong. Why? They're focused on the flashy, "look-at-me" job search tactics and are leaving the basics in the dust.

**What this book is:** If you're looking for everything you need to know to obtain a job (or change careers) and want to learn the job seeking basics in an easy-to-follow, step-by-step manner that makes sense... then this book is for you.

**What this book is not:** If you're looking for crazy ways to catch the attention of a hiring manager, such as paying to have an airplane pilot fly a "Hire Me" banner over the company or using a singing telegram service to deliver your resume to an unsuspecting hiring manager... then this book is not for you.

**"Secrets of a Hiring Manager turned Career Coach"** is an easy-to-follow, self-help manual of the job searching basics. It's like having a career coach in your corner, helping you through every step to obtain a new job.
