Every year readers are faced with “best of” lists of books, from outlets ranging from “GoodReads Choice” to NPR. And every year they all pretty much feature the same titles (this year it’s Ta-Nehisi Coates’s award-winning *Between the World and Me*, Kristin Hannah’s *The Nightingale*, David McCullough’s *The Wright Brothers* and Harper Lee’s *Go Set a Watchman* , among others).

We’re not saying those books aren’t good, but really, is that all there is? What about the indie titles? The hot romances, off-beat memoirs, the cool science fiction, fantasy and YA, worlds created and envisioned by one person, the indie author?

Two years ago we predicted that at least *one* of the prolific “Best Of” lists would include a self-pubbed book or two. This year that happened via [The Washington Post’s](#) list, although to be fair the paper is owned by Jeff Bezos (of Amazon) and the book chosen was a Romance/erotica novel called *Serving Pleasure* by Alisha Rai.

So get out your gift lists and your Kindles and Kobos, or order them in print.

Presenting IndieReader’s list of the best reviewed indie titles of 2015.
